MEMORANDUM

January 21, 2005

To: Approved Continuing Education

From: Hazel Muhammad, Assistant Bureau Chief
       Bureau of Licensing

Re: Implementation of Adjuster Continuing Education Rule

Section 626.689, Florida Statutes requires all adjusters to complete 24 hours of continuing education courses every 2 years. Since Rule 69B-228 specifying requirements and standards is effective January 2005, implementation of this requirement will begin with the compliance cycle beginning January 2006. This means any adjuster who has a compliance period of January 2006 will be required to have completed the 24 hours of continuing education.

As a reminder, the requirement is as follows:

2 hours- Ethics
10 hours- Law
12 hours- Optional

The Department is accepting course applications for adjuster continuing education courses. This can be submitted as a class, seminar, or self-study method. If you are not yet approved to provide adjuster courses, please apply through our Agent Education Database at www.fldfs.com. If you already have courses that have been approved as 2-20 general lines and would like to offer them to adjusters, you would need to reapply as a 3-24 course authority.

For additional information regarding any information in this memorandum, please call the Bureau of Licensing at 850-413-3137 extension 1101.
